DeSaulnier, Jr. and the following business was transacted. On a motion made by Harold C. Petterson, it was voted to waive the reading of the warrant.

UNDER ARTICLE ONE:

To hear reports of officers and committees. Edward G. Krasnecki reported for the Town Manager Form of Government Committee as follows:

The committee appointed to study the Selectman-Town Manager Form of Government gives a report of progress. Prior to petitioning the General Court so that a bill may be passed enabling us to have this act placed on the ballot for the next annual election, we of the committee will hold a public hearing at the High School Auditorium on March 28, 1955 at 8 P.M. at which time all Voters of the town will be heard by members of the Committee. Basic facts of the act have been published in the newspapers, explaining the establishment of a Selectmen-Town Manager form of government for the Town of Chelmsford. We trust that the citizens of this town will study this act, come to the hearing on March 28th to be heard, and then allow every voter in this town the right to determine what type of government is wanted.

Arthur Nystrom moved that the report of progress be accepted and that the Selectmen-Town Manager Committee be continued, and it was so voted.

Carl Johnson moved that the sum of \$50.00 be voted to be used by the Selectmen-Town Manager Committee for expenses to be incurred in holding a hearing. The Moderator ruled this motion out of order as no article calling for an appropriation was in warrant.

Robert Picken reported for Committee on new School at North Chelmsford. Mr. Picken said that the new school was completed and the same had been turned over to the School Committee and had been occupied since September, 1953. Mr. Picken thanked all who had contributed to construction of said building and especially the Building Committee who worked with him, and asked that the Committee be discharged from further service and it was so voted.

Mr. George Archer reported on the Committee building the New School at Chelmsford Center, and said that the building was practically completed other than a few minor details and the completion of grading. Mr. Archer asked that committee be continued and it was so voted.

Mr. John E. Johnson reported for By-Law Committee and asked that the committee be continued in office until such time as a complete set of By-Laws are printed and ready for distribution and it was so voted.

Mr. Carl Peterson reported for the Tercentenary Committee that the Committee was setting the program for the anniversary to be held June 9-10-11 in its final stages and asked that Committee be continued and it was so voted.

Mr. Myles J. Hogan reported for the Committee on Tree and Shrub Planting and said that although the Committee had not advanced too rapidly in their program, they wished to continue for another year and it was so voted.

Mr. Bernard McGovern reported for the North Chelmsford Fire House Committee, and asked that their report be heard at the time Article 15 and 16 are acted upon.

In regard to the Honor Roll Committee, no person reported for this committee.

On a motion made by Mr. Harold C. Petterson, it was voted to accept the Town Report as printed.

On a motion made by Bernard McGovern, Mr. John W. Dixon was elected as a member of the Varney Playground Commission for three years.

After the report of Mr. Carl A. E. Peterson for the Tercentenary Committee, Mr. Charles P. Wright moved that the acceptance of this report be reconsidered, and it was decisively voted not to reconsider this report.

UNDER ARTICLE ELEVEN:

On March 14, 1955, it was voted to take this article up out of order and on a motion by Hans Schliebus it was voted to place this article on the table. (For further action on this article, see action after Article 20.)

UNDER ARTICLE TWELVE:

In regard to By-Law concerning use of firearms, it was voted to dismiss this article.

236 Voted in the affirmative

211 voted in the negative

UNDER ARTICLE THIRTEEN:

On a motion made by Donald E. Smith, it was voted to raise and appropriate the sum of Eight Hundred Ninety-Eight (\$898.00) Dollars for the purpose of purchasing two 1955 Tudor Police Cruisers, said purchase to be under the supervision of the Board of Selectmen.

UNDER ARTICLE FOURTEEN:

On a motion made by Donald E. Smith, it was voted to authorize

the Board of Selectmen to execute on behalf of the Town a bill of sale conveying title to the two 1954 Police Automobiles now used by the Police Department.

UNDER ARTICLE FIFTEEN:

On a motion made by the North Chelmsford Firehouse Building Committee composed of Richard B. Carr, John J. Dunigan, Roger P. Welch, Harry L. Shedd, Jr., Allan Kidder, and Bernard F. McGovern, it was voted that for the purpose of constructing and originally equipping and furnishing a Fire Station at North Chelmsford on land now owned by the Town of Chelmsford that the town appropriate and transfer and borrow the following sums:

\$33,250.00 to be transferred from the Stabilization Fund, so-called, and that \$1,150.00 be transferred from an appropriation made under Article 29 of the Annual Town Meeting held on March 8, 1954, and that \$3,600.00 be raised by tax levy and that the Treasurer with the approval of the Board of Selectmen be authorized to borrow the sum of \$10,000.00 under Chapter 44 of the General Laws and to issue notes payable \$1,000.00 each year from the date of the first note for 10 years. Making a total of \$48,000.00. All of the said money to be used for the purpose aforesaid.

This vote was unanimous.

UNDER ARTICLE SIXTEEN:

On a motion made by Bernard F. McGovern, it was voted that a North Chelmsford Fire House Building Committee be appointed composed of Bernard F. McGovern, Harry L. Shedd, Richard Carr, Allan Kidder, John J. Dunigan, Vinson C. Reid and Roger P. Welch and that the said committee be authorized to proceed with the construction of said project and to enter into all necessary and proper contracts and agreements in respect thereto and to do all other acts necessary for constructing said project.

On a motion made by Harold J. Pearson, it was voted that the Town ratify the action of the Planning Board taken at a meeting of

said board on April 1, 1954 to compensate the Clerk of the Board at an Annual Salary of Two Hundred Fifty (\$250.00) Dollars and to pay said Clerk the sum of One Hundred Eighty-seven and 50/100 (\$187.50) Dollars for services performed from April 1, 1954 to December 31, 1954, said sum to be paid from funds appropriated for Clerk Hire at the Annual meeting of 1954.

This vote was unanimous.

UNDER ARTICLE TWENTY:

On a motion made by Myles J. Hogan that the Town vote to raise and appropriate the sum of Three Thousand (\$3,000.00) for the purpose of purchasing a new power sprayer pump for the Moth Department, this motion was defeated.

*After Article 9 was acted upon, Mr. Thomas Molloy moved that Article 11 be taken from the table. This motion was defeated.

At this point Mr. Raymond Greenwood tried to get the floor to explain to the meeting what would happen if Article 11 was not acted upon. The Moderator ruled there could be no debate at this point unless the meeting would unanimously consent to let Mr. Greenwood speak. Mr. Bouchard objected, thus eliminating Mr. Greenwood from speaking on the matter.

After Article 20 had been acted upon Judge Valentine arose to ask for a point of order, the judge stated that increases voted under Article 2 could not be paid unless some action was taken under Article 11. The Judge further suggested that someone should move that Article 11 be taken from the table. Mr. Thomas Malloy so moved and it was voted to take Article 11 from the table. After much discussion on a motion made by Mr. Warren Lahue, it was voted to amend Article 11 with the subject matter of Article 10 found on pages 29-32 inc. of the Finance Committee's report, a hand vote was taken and the vote was as follows:

SPECIAL TOWN MEETING

May 26, 1955

The special Town Meeting was held in the High School Auditorium on May 26, 1955 at 7:30 P.M. The meeting was called to order by Moderator Edward J. DeSaulnier, Jr. and the tellers appointed were M. Edward Riney and Edward Whalen. A count of the voters present was made and 214 were found to be present. The following business was then transacted:

UNDER ARTICLE 1.

On a motion made by Roger W. Boyd, it was voted to appropriate the sum of Twelve Thousand (\$12,000.00) Dollars for the purpose of purchasing from James F. Dunigan a certain parcel of land containing a sand bank located on the southerly side of Richardson Road in that part of Chelmsford called North Chelmsford and to provide for said appropriation, Three Thousand (\$3,000.00) Dollars be appropriated from the account entitled Sale of Town Property, and Nine Thousand (\$9,000.00) Dollars be appropriated from available funds in the Treasury. The above premises described on a plan of land entitled "Plan of Land in Chelmsford, Mass. belonging to James F. Dunigan" surveyed Jan. 1955 by J.C. & W.T. Monahan, C.E. and Surveyors. Scale 1 in. = 60 ft. To be recorded with the Middlesex North District Registry of Deeds, Lowell, Mass.

143 voted in the affirmative

34 voted in the negative

UNDER ARTICLE 2.

On a motion made by Roger W. Boyd, it was voted to accept from Bessie Butler Hadley and Anna W. Lamson, title to a building formerly used as "a toll house" and to authorize the selectmen to move the same from its present location on Middlesex Street in North Chelmsford to a new location within the Town that their judgement deems advisable.

UNDER ARTICLE 3.

On a motion made by Frank H. Hardy, it was unanimously voted to appropriate and transfer from the Sale of Lots and Graves Account, the sum of One Thousand (\$1,000.00) Dollars for the purpose of grading and beautifying Fairview Cemetery.

UNDER ARTICLE 4.

On a motion made by Roger W. Boyd, it was voted to accept as a gift from the Lowell Sportsmens' Club and Ethel M. Hepworth, the legal title to land located on Swain Road and more particularly described in two deeds, one from the Lowell Sportsmens' Club to the Town of Chelmsford, recorded in Middlesex North District Registry of Deeds, Book 1280, Page 268 and the other from Ethel M. Hepworth, recorded in Middlesex North District Registry of Deeds, Land Court side, Book 50, Page 123.

UNDER ARTICLE 5.

On a motion made by Daniel J. Hart to repeal a By-Law previously adopted by the Town entitled "PERSONNEL, WAGE AND SALARY CLASSIFICATION AND COMPENSATION PLAN - Town of Chelmsford, Massachusetts". This motion was lost.

UNDER ARTICLE 6.

On a motion made by Charles Wright it was voted to substitute the following for the motion offered by Mr. Boyd under Article 6, to wit: To amend the By-Law entitled: Personnel, Wage and Salary Classification and Compensation Plan - Town of Chelmsford, Massachusetts, by striking out in its entirety Section 24 of said By-Law and substituting the following:

REPORT OF THE ADAMS LIBRARY LIBRARIAN

To the Honorable Board of Selectmen:

The Adams Library is serving an increasing number of people each year. It is being used by more and more students from the High School and from other educational institutions.

Two groups of pupils from the elementary grades at Chelmsford Center visited the library during the past year. Mrs. Mary Manning came with the fourth grade in May and Miss Grace Taylor with the fifth grade in November.

In spite of counter attractions, people still read books. The circulation has increased again this year. The statistics follow:

Non-fiction	8,744
Fiction	22,655
Total circulation	31,399
Books purchased	425
New borrowers	340
Histories sold	18

Many of our friends have donated books and magazines. The donors were Mrs. Warren C. Lahue, the Lowell Wellesley Club, Mr. Thomas McCormack, Mrs. Clifford Foucar, Mr. Harold Brown, Mr. Joseph Gill, Mrs. Lillian Ryan, Mrs. Jean Connell, Miss Marjorie B. Scoboria, Mrs. Edith Brookie, Mrs. Edmund Ward, Mrs. Patricia Roberts, Miss Margaret Caddell, Mr. Raymond Kroll, Mrs. Maynard, Mr. George S. Wright.

Because of the tercentenary celebration in June much interest in Chelmsford history was evident during 1955. More than the usual number of histories were sold, not only to towns people but to others as well.

The original greeting sent to Chelmsford, Massachusetts from Chelmsford, England, has been framed and presented to the Adams Library.

As part of the celebration the Chelmsford Garden Club donated two yews which were planted, one at each side of the front steps.

These were presented with an appropriate ceremony. Another activity of the Garden Club has been the placing of flower arrangements in the reading room. These have added much to its attractiveness. The Christmas decorations were especially beautiful.

The exhibits in charge of Miss Marjorie B. Scoboria have been varied and of much interest.

In closing I thank the Trustees and all others who have helped in any way to make the past year friendly and worth while.

Respectfully submitted,

REPORT OF THE FIRE DEPARTMENT

Board of Selectmen
Town Hall
Chelmsford, Massachusetts

Gentlemen:

It is with pleasure that I submit my report of the activities of your fire department at the completion of the first year it has functioned under the system of the administration of a Fire Chief.

A program was inaugurated in the Fire Department this year for training the personnel, both permanent and callmen, that has proven to be of tremendous value. Drill periods were held every week under a schedule that enabled all firefighters to attend every two weeks. The instruction received was of the latest and of the most up-to-date methods employed by leading firefighting forces.

A maintenance system was started in the department in the past year; whereby, all our minor repairs, testing and recording is being carried out by a department mechanic. All apparatus and equipment in all stations are checked every other day and the department mechanic is available at all times.

Inspection of oil burning equipment, bottled gas installations and all other items that come under the control of the fire department are now being carried out in a most efficient manner.

Improved record facilities have been instituted and a more closely knitted fire fighting and fire prevention organization is now in operation.

Constant attendance at the telephone switchboard, radio transmitter and fire alarm headquarters by a permanent member of the department has been inaugurated since June 1st of 1955.

Another step in centralizing our fire alarm system by tying the West Chelmsford alarm circuit into the alarm headquarters at 7 North Road has been started, but not completed at this date.

For the most part, all the foregoing improvements in the structure and operation of the Fire Department have been made possible by the

four additional men that were authorized at the annual town meeting in March of 1955.

A decided increase in requests for services of the Fire Department is evidenced in the following record of alarms responded to by the Fire Department in 1955.

Automobile Accidents	5
Automobile Fires	27
Building Fires	64
Dump Fires	13
False Alarms - Malicious	3
False Alarms - Accidental	16
Grass & Brush Fires	154
Investigations	32
Out-of-Town Aid Given	8
Out-of-Town Aid Received	13
Resuscitator	8
Miscellaneous Calls	17

The following amounts of explosives of all classes, stored in magazines in the Town of Chelmsford are: Magazine No. 1, 46,000 lbs.; Magazine No. 2, 51,000 lbs.; Magazine No. 3, 4,500 lbs.

In the past year, through the splendid cooperation of the Police Department and the Office of State Fire Marshal, much has been accomplished in the way of fire prevention and the proper disposition of cases of fires of suspicious origin that have occurred in Chelmsford. Court action where necessary has been ably carried out by the Chief of Police.

I shall take this opportunity to thank each and every member of the Fire Department, regardless of his position or duties, for making this record possible.

I also would like to publicly thank the Board of Selectmen and the personnel of all other departments for the splendid cooperation they have given to Fire Department in the year 1955.

Allan Kidder
Fire Chief

REPORT OF THE PARK COMMISSIONERS

To the Citizens of the Town:

It was indeed an honor for us, the members of the Park Commission, to have served our Town during the Tercentenary Celebration. This was a small responsibility, but nevertheless it seemed important to us that the parks throughout the town look their very best during this occasion when so many out of town people would be paying us a visit.

The usual program of maintenance and general improvement was successfully carried out. Flowers were set out in the spring which bloomed through Memorial Day and the Tercentenary Celebration. The hedge around the Center Common which had long been a collector of leaves and rubbish was removed. A handsome Rock Maple tree was received as a gift from the Town of Billerica in connection with the celebration and was placed on the North Common through the courtesy of the Community Tree Service.

Again we extend our thanks to Morton Pickard and Harold Erikson for their continued faithful service.

Respectfully submitted,

A. LOUIS BENNETT, Chairman
BRADFORD O. EMERSON, Clerk

REPORT OF THE CIVILIAN DEFENSE

To the Honorable Board of Selectmen
Town of Chelmsford, Massachusetts

We, of the Civil Defense Commission, first want to thank the Board of Selectmen, the Chief of Police and the Chief of the Fire Department, and other public officials for the splendid co-operation we received during the year 1955.

We first want to discuss the problem of Civil Defense, not so much in terms of budgets, appropriations of money spent, but rather in terms of the internal organization of Town Government at all levels.

We may never entirely achieve the total objective we have in mind, but at least some effort in this direction will indeed improve our chances of achieving a reasonable state of civil defense preparedness.

While our townspeople understand and appreciate civil defense for the most part, the opportunity to translate this enthusiasm into action has too seldom been provided, only by a few loyal workers, too few indeed.

In order to emphasize our joint responsibilities, we have sought to organize the civil defense in a manner which should prove to be effective to a great extent as the years go by. Our planning for the future will not be complete nor realistic if we point to our civil defense organization as a feeble appendage of the town government, rather than an integrated vital element of planned administration.

We have met as a committee every week, on Thursday in the Center Fire House for the past year. A great deal of planning and thought as well as action has been the result. We now have the following supervisors, that have organized their separate units and meet regularly. Plans and objectives are brought into effect by all these people, and they are the grass roots of the organization here in town.

Mr. Malcolm Bedell	Supervisor of Public Relations
Mr. Stanley W. Eaton	Supervisor of Public Health
Mr. Frederick Meehan, Sr.	Supervisor of Auxiliary Police
Mr. Clarence DeCarteret	Supervisor of Transportation & Heavy Equipment
Mr. Frederick Meehan, Jr.	Supervisor of Ground Observer Corps
Mr. Douglas Schliebus	Supervisor of Communications

We have been successful in obtaining matching funds from the State for equipment requested by the Fire and Police Departments. We have returned as a result in the year 1955, the amount of \$1,452.14 to the town treasury. In order to obtain these matching funds, many hours of paper work, trips to Natick and Boston were necessary. This work was done by your commissioners in addition to the weekly meetings during the year.

Floods sweeping through the northeast United States in the dying hours of Hurricane Diane caused what one official described as "one of the biggest and toughest rehabilitation jobs since Noah". With damage unofficially estimated at more than a billion dollars, the floods were probably the costliest natural disaster in American history. Civil Defense is on record as having played an important part in rehabilitation, evacuation, communications and many other phases of restoration of this terrible disaster. Let us hope that, we in Chelmsford, never have to experience the disaster or tragedy of such an occurrence.

The need for an effective system of civil defense in the Town of Chelmsford is surely beyond dispute. It presents itself today in its noblest aspect, namely the Christian duty of helping fellow mortals in distress. Rescue, salvage, medical, communications, transportation and mass feeding have been the core of Civil Defense, and no family, no town or city, nor any honorable man or woman can repudiate this duty and accept from others help which they are not prepared to fit themselves to render in return.

The principles and purposes, sketchly outlined here, must be, in our judgement, the objectives through the coming months. We are optimistic about your reaction to them, confident of your willingness to support them, and certain of our success if you lend to the task your personal help and support in the year to come.

BERTRAM T. NEEDHAM, Director

WILLIAM EDGE, Deputy Director

CHARLES S. KOULAS, Deputy Director

REPORT OF THE PLANNING BOARD

To the Citizens of the Town of Chelmsford:

Gentlemen:

The Planning Board was organized for the year 1955 with Charles D. Harrington as Chairman and Carl A. E. Peterson as Secretary-Clerk and with Harold C. Clayton, Jr., George S. Archer, Harold J. Pearson, George R. Dupee and Claude J. Harvey as members. Charles D. Harrington and Claude J. Harvey were newly elected members in 1955; Mr. Harrington taking the place of Arnold C. Perham and Mr. Harvey filling the unexpired term of John L. Dusseault who had served the Board as Chairman for several years.

The Board held thirty-one meetings during the year. There were eleven hearings on subdivisions and four hearings on zoning. There were also various approvals of subdivisions on which previous hearings had been held.

Under authorization by a vote of the 1955 Town Meeting, the Board engaged Nord W. Davis of Shirley, Land Planner, for the purpose of submitting a new Zoning By-Law to the Town including various types of residential zones as well as business and industrial zones. When the new Zoning By-law is finally drafted, the Board will submit its proposals under the guidance and recommendations of the Town Planner to the citizens of the Town by means of informal public hearings as well as the required legal notices before submission to the voters at a Town Meeting.

It has been emphasized previously in Planning Board Reports that the trend from the city to the suburbs has added greatly to the problems of the Town and the Planning Board. The Board believes that, if the Town is to continue to grow in an orderly, scientific and healthful manner, greater emphasis should be given to long range planning.

The Planning Board is very grateful for the cooperation of the Town Officials and the citizens of the Town.

Respectfully submitted,
Charles D. Harrington, Chairman
Carl A. E. Peterson, Secretary-Clerk

REPORT OF THE BOARD OF APPEALS

To the Honorable Board of Selectmen

Town of Chelmsford

Gentlemen:

The Board of Appeals received thirty-four applications for variance during the year 1955. It was the largest number of applications received in the history of the department. For each application a filing fee of \$10.00 is received and the Board turned over to the Treasurer \$340.00 during the year. This sum assists the town a great deal in lowering the cost to the taxpayers of this service.

The disposition of the various applications follow:

Total number withdrawn	1
Total number granted	22
Total number denied	9
Total number pending as of Dec. 31st for disposition during 1956	2
Total of applications	34

The members of the Board of Appeals, Charles Egerton, Chairman, Louis L. Hannaford, Jr., Raymond J. Greenwood, Willis E. Buckingham, Richard B. Carr and alternate Paul W. O'Neil, wish to extend their appreciation to the Board of Selectmen and other town officials as well as the townspeople for their cooperation and assistance during the year in carrying out the duties of this important service to the residents of Chelmsford.

For the Board of Appeals,

ALFRED H. COBURN

Clerk

REPORT OF THE CONSTABLE

To the Honorable Board of Selectmen:

Gentlemen:

As Constable of the Town of Chelmsford, I wish to submit the following report.

Posted six warrants, May 10, 1955 for special Town Meeting on May 18, 1955.

Posted six warrants, December 21, 1955 for special Town Meeting December 29, 1955.

WILLIAM G. JONES

DEPARTMENT OF VETERANS SERVICE

To the Honorable Board of Selectmen

Gentlemen:

During the eleven months since my reappointment as Veterans' Agent I have taken 22 applications for veterans' Benefits of which 15 were approved and 7 disapproved.

As of February 1, 1955 there were 15 active cases and as of December 31, 1955 there were 19, a gain of 4. Of this number 12 cases are classed as permanent and seven will probably be closed out between now and the end of the year.

A total of \$16,139.50 was paid out in Veterans' Benefits of which approximately 50% will be returned to the Town by the State Commissioner. Under the Veterans' Benefits law he will pay back to the Town one half of all payments approved by him.

Other services provided by this department during the year were aiding veterans to fill out various forms, notarizing documents where necessary, furnishing information as to services provided by other agencies, advising as to job opportunities in the area and helping them get jobs.

Yours truly,
GORDON P. DeWOLF
Veterans' Agent

REPORT OF HONOR ROLL COMMITTEE

To the Honorable Selectmen:

We would like at this time to submit our report for the year of 1955. We have had several meetings of our committee and have also met with the Selectmen and Park Department in regards to the location of our new stone monument. This stone was erected on the center common opposite the new firehouse. Dedicating ceremonies were held on the common on Memorial Day and were largely attended. The stone still shows some scars from the fire which was set on it and it is impossible to remove any more as it has got into the grain and cannot be removed.

We have not as yet taken the old honor roll down as we thought that it would be nice to leave it up during the 300th celebration. We do have in mind the making of permanent records of this honor roll. This will be done in five copies, one to the Town Clerk and one to each of the libraries along with one to the Veterans' Agent. This item would cost approximately one hundred dollars. This should be the last cost to the town for the honor roll.

Respectfully submitted,

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:
Town of Chelmsford

Gentlemen:

As Sealer of Weights and Measures, I wish to submit my report for the year 1955.

In performance of my duty I have sealed:

52 Gasoline pumps and meters
36 Kerosene and grease pumps
62 Scales under 5,000 lbs.
39 Scales under 100 lbs.
48 Weights
11 Scales adjusted

Money received from seals, the sum of \$160.30, has been turned over to the Town Treasurer.

Respectfully submitted,

ANTHONEY C. FERREIRA

REPORT OF THE DOG OFFICER

To the Honorable Board of Selectmen:

The following is a report of my services as Dog Officer for the year 1955:

Dogs picked up and kept 6 days	96
Dogs disposed of	96
Lost dogs located & returned to owners	26
Complaints investigated & misc. calls	87

In addition to the above, I disposed of 80 dead cats, 51 dead dogs and 18 miscellaneous dead animals picked up on the streets.

Respectfully submitted,

CHARLES G. FULLER

Dog Officer

REPORT OF THE CEMETERY DEPARTMENT

To the Honorable Board of Selectmen
Chelmsford, Mass.

Gentlemen:

It is with great pleasure that the Cemetery Commissioners report progress in the development and caring of the cemeteries.

During the past year, the area at the entrance to Pine Ridge Cemetery was raised and regraded with over 2,500 yards of fill required.

The Fairview Cemetery was regraded to a rather large scale with over 1,000 yards of fill required to bring up the grade.

In the West Chelmsford Cemetery, considerable work was done on the widening and regrading of the roads and painting of the fence.

The roads were oiled in Fairview, West and Pine Ridge cemeteries.

It is the earnest hope of the Commissioners that the Heart's Pond Cemetery in South Chelmsford will be developed and beautified during the coming year.

As the town grows each year, so do the cemeteries. This growth includes the number of interments, the perpetual care interest, and sale of lots to a new high.

It also might be pointed out that the spread between receipts and expenditures is lessening year by year. In the year 1952 our total receipts for the year were \$3,288.10. This has grown to \$6,297.34 during 1955. It also might be pointed out that in 1951 the sum of \$1,265.00 was taken in for the Perpetual Care Fund, during 1955 this amount was raised to \$4,200.00.

The Commissioners wish to thank the Board of Selectmen, all town officials and especially the superintendent of the Highway Department, Mr. Fred Greenwood, for their co-operation during the past year.

Respectfully submitted,

1. Frank H. Hardy, Chairman
2. Arne Olsen, Clerk
3. Arthur Colmer

COMMUNICABLE DISEASES

In 1955 the reported communicable diseases showed that measles in the first three months was above the yearly medium. Infectious Hepatitis also was above the medium.

There was only one poliomyelitis case in 1955 which was unusual, considering the fact that Massachusetts had an epidemic. The public polio vaccination program for the school children will continue in 1956 pending the approval of the polio vaccine by the Massachusetts Polio Advisory Committee.

The following is a summary of communicable diseases reported in 1952, 1953, 1954 and 1955:

	1952	1953	1954	1955
Chicken Pox	113	64	5	4

SANITARY INSPECTIONS

Food Establishments

A summary of inspections in those establishments offering food and/or drink for public consumption is as follows:

Eating and/or drinking Establishments	65
Grocery Stores	25
Bakeries	5
School Cafeterias	20
Soft Drink Plants	2
Tercentenary Eating Establishments	
Special Temporary Permits issued	10
Visits and Inspections	28

It was necessary for the Tercentennial celebration to issue Temporary permits for the food Establishments, to make educational and set-up visits, and inspections of the establishments.

The school cafeterias and lunch rooms were shown to be in good order. The inspections were made without notice, as all food inspections are made. The school food handlers have shown much interest in doing good sanitary work.

SEWAGE DISPOSAL

In 1955, 234 sewage system permits were issued. The greatest part of these permits were for the construction and installation of sewage systems for new homes. By the end of December 1955, 151 sewage systems had been approved.

The sewage systems are designed for the type of soil in which they are used. The rate of water seepage through the soil is determined by the Percolation Test. The size of the disposal field or seepage pit is then designed from the results of the percolation test.

Subdivision or multiple house lot plans must be approved by the Board of Health. Through percolation tests and field survey the proposed subdivisions are approved.

Sewage Disposal Inspections

Board of Health Laboratory

The following are tests and sampling made in the Board of Health Laboratory in 1955:

Private Well Water Tests	21
Milk Supply Tests	289
Beach Water Tests	20
Swab Tests at food Establishments	121
Tests for Dracut Board of Health	46

A source of income for the Town is the testing done for the Dracut Board of Health and the use of the Laboratory by the Wilmington Board of Health.

The testing of the private well waters, is called to the attention of the citizens. The tests are at no charge to the town residents.

The tests on Community's milk supply has shown that the quality is consistently good. Samples are taken from each processing dairy at least every 1½ months.

The Beach water samples tested well within the allowable contamination count. The beaches were heavily used by swimmers until the latter half of the summer season.

Estimated Income for 1956

The following is the estimated income for the Board of Health for 1956:

Plumbing Inspection Fees	\$ 1,900
Wood Alcohol Licenses	25
Milk Licenses	60
Bottling Plant License	10
Sewage System Permits	500
Laboratory Renting & Testing	400
State Subsidy for T. B. Patients	500
Miscellaneous Permits	20

Rubbish Collection

In 1955 the Rubbish Collection picked up an estimated 14,500 yards of compressed refuse. The equipment used was one 16 yd. compression truck, staffed by three men.

The growth of the town—additional number of stops (575) and additional mileage—since the establishment of the rubbish collection in 1953, has necessitated the use of the truck to full capacity. Caused by breakdowns of the truck and heavy loads during cleanout periods, the rubbish collections, at times have been later than scheduled. This was unavoidable in as much as there is only one rubbish truck and no money was appropriated for overtime labor.

January 1, 1955 to December 31, 1955	Weekly Collection
52 Weeks	3.5 Loads per day average
Total	14,500 yards compressed

Town Dump

The Board of Health, in 1955 continued to raise the level of the dump. This was done by burning the rubbish and compacting by the bulldozer. The raised areas were then covered by sand. This method will lengthen the period that the dump can be used and has lower expenses of upkeep.

Also part of the dump maintenance includes the lower rear area which is set aside for the dumping of brush, tree limbs and trunks.

In Conclusion

The Board of Health hopes to have served well the citizens of Chelmsford in 1955. The success of any present, or future health program is due in part, to the cooperation and support of the townspeople.

The Board wishes to thank the Town Officials for their assistance throughout the past year.

REPORT OF THE MIDDLESEX COUNTY EXTENSION SERVICE

by **J. T. Brown, Director**

The County Extension Service is a part of the Land Grant College System and is associated with the University of Massachusetts and the United States Department of Agriculture. Other phases of this system include the Experiment Stations, the Regulatory Control Services and Resident Instruction.

The Extension Service is under the direction of the Board of Trustees and the Middlesex County Commissioners. The objective of the Extension Service is to bring to the residents of Middlesex County the results of research, enabling producers and consumers to put into practice efficient production and utilization practices. The effects of this program result in lower unit cost and a savings for the consuming public.

The three departments of the County Extension Service are Agricultural, Home Economics and 4-H Club Work.

In the Agricultural Department, formal programs are conducted in poultry, turkey, dairy, general livestock, fruit, vegetables, flowers, forestry, home gardening and landscape care. The agricultural program is conducted on a regional basis with many towns participating in the numerous meetings and other events. In the past, greater emphasis has been placed on production problems and in assisting farmers to use efficient methods that they might compete with other areas.

A surplus of agricultural products makes it necessary for agricultural agents to do more in the marketing of these crops. In the future, more attention will be given to better market facilities, more efficient distribution and maintenance of high quality. This will require expanding the services to producers, wholesalers, jobbers, retailers and consumers.

The Home Economics Department program is designed to help the busy homemaker in her search for information regarding problems of home and family life. Subjects covered are foods and nutrition, clothing, home furnishing and management, family economics, child development and recreation. A Women's Advisory Council helps select

and promote programs in the different towns. Meetings are held in local communities, or on a regional or county-wide basis depending on the subject.

4-H clubs offer opportunities to young people to learn more about all phases of Agriculture and Home Economics. In 1955, there were 4-H clubs in 46 towns of Middlesex County with an enrollment of over 2400 members. The success of 4-H club work depends entirely on the 206 volunteer local leaders who freely give many hours teaching the projects carried on by the clubs. The excellent work done by these youngsters was exhibited at the 4-H Achievement day in May and the Middlesex County 4-H Fair in August. A 4-H camp at Ashby is operated for weeks each summer and provides nature study, crafts, swimming and healthful living for the 4-H'ers of Middlesex County. The Extension Service is especially proud of the five 4-H'ers of Middlesex County who became state winners in Citizenship, Health, Home Improvement, Rural Arts, and Recreation and National Poultry Winner.

New programs of the Extension Service broaden the scope of the work. Special emphasis on marketing and consumer information, urban problems, farm and home counseling and public affairs are being undertaken in the year ahead.

The brevity of this report requires generalization. The motto of the Extension Service, "To Help Those Who Help Themselves", expresses the primary goal of this organization.

REPORT OF THE ANIMAL INSPECTOR

To the Honorable Board of Selectmen
Chelmsford, Massachusetts.

Gentlemen:

The following is the report for the year 1955 as Inspector of Animals.

Number of dog bites reported	36
Number of dogs showing physical signs of rabies	0
Number of dogs submitted to laboratory examination ...	0
Number of premises keeping domestic animals	62
Number of cattle	775
Number of swine	720
Number of horses	32
Number of sheep	27
Number of cows released from interstate shipment	9
Vesicular Exanthemia (VE) Regulations Modified	

The U. S. Department of Agriculture has announced that after July 1, 1956, swine that have been fed raw garbage at any time, and swine products derived from them will not be permitted to move interstate except for special processing. In some cases the value of hogs is reduced as much as 50 percent by special processing. These **modified** regulations have been brought about by the satisfactory equipment for cooking garbage now available.

Dairyman's Interest

In order that a dairyman may not have the experience of purchasing an improper addition to his herd, he should insist that his dealer or seller give him a health chart on delivery, or contact the Division of Livestock Disease Control-41 Tremont St.-Boston 8, Mass. for approval. The state is now doing all calfhooed vaccination and all calves must be vaccinated between the ages of 4 through 8 months. Reduced funds, state and federal, has curtailed for the present only, the work of blood testing in Massachusetts. The sentiment in the state is for a law, Bangs free by 1960

Respectfully,

W. E. MERRIL VMD

REPORT OF THE SECRETARY OF THE VETERANS EMERGENCY FUND COMMITTEE

To the Honorable Board of Selectmen
Town of Chelmsford

Gentlemen:

The members of the Veterans' Emergency Fund Committee wish to submit their annual report to you and to the townspeople of Chelmsford.

The year 1955 was a most quiet one for the committee. One request for assistance to a veteran was received and unlike other requests in the past, the most recent one was for a loan to be repaid within a few months.

The members voted to approve the loan but shortly thereafter the veteran was able to make his own financial arrangements, thus no payments were made from the fund for assistance.

The Treasurer of the Committee has reported a substantial amount of money received as interest on funds invested. Thus the principal has been allowed to increase during 1955.

The committee members once again are listed by precincts and any veterans desiring financial assistance should consult their precinct representative.

REPORT OF TRICENTENARY COMMITTEE

To The Honorable Board of Selectmen
and The Citizens of the Town of Chelmsford

In accordance with votes of the Annual Town Meetings of 1954 and 1955, The Town of Chelmsford held a four-day official celebration on June 9, 10, 11 and 12, 1955, commemorating the Three Hundredth Anniversary of the incorporation of the Town. In planning the program, the Chelmsford Tercentenary Committee endeavored to keep in mind the historical and spiritual significance of the event, and yet give due consideration to the festive and joyous aspects of the celebration.

In 1954, the Committee formed a corporation called the Chelmsford Tercentenary Committee, Inc., consisting of all the members of the committee. This was done in order to facilitate the conducting of the celebration, particularly in relation to its financial operation. The financial details are not entirely complete, but are complete to the extent that it is reasonably certain that a sizable balance in the possession of the Chelmsford Tercentenary Committee, Inc. will be available to be returned to the Town.

The Committee appointed a total of seventeen subcommittees under their respective chairmen to aid it in managing the celebration. With the cooperation and generosity of these committees and countless other citizens of the Town, the celebration was made possible.

Previously there had been considerable discussion as to whether the Committee should engage outside professional assistance but after measured deliberation, it was decided not to engage any outside assistance, but to have a celebration conducted exclusively by the citizens of the Town of Chelmsford. With the knowledge gained by observation of other celebrations, and by its own experience, the Committee believes that this was a wise decision.

The history of the celebration will be covered by a special report which will give detailed coverage of the event.

The Committee trusts that the celebration afforded an occasion for many to have joyous reunions, and to be remembered by all to have brought happiness and pleasure to the citizens, while at the same time giving thought and recognition to our forefathers who made our cherished heritage possible.

To all who participated and assisted, the Committee expresses its heartfelt gratitude.

REPORT OF THE PERSONNEL BOARD

To the Honorable Board of Selectmen:

In July the former Chairman of the Board, Mr. Charles P. Wright submitted his resignation. In November the Moderator appointed Julian H. Zabierek to fill the unexpired Term.

On December 5th, 1955 the Board met and organized with Norbert F. Parent elected Chairman.

Four meetings were held hearing requests of department heads, making studies of existing conditions in Chelmsford and compiling data obtained from surrounding towns with similar problems.

On December 19th Mr. Parent submitted his resignation to the Moderator. The Board then elected Mr. Zabierek as Chairman.

On December 21st, 1955, as required by the Personnel, Wage & Salary Administration By-Law, the recommendations of the Personnel Board were sent to the Finance Committee.

Respectfully submitted,

Julian H. Zabierek

POLICE STATISTICS FOR YEAR 1955

Police answered 1,946 calls in year 1955.

Cruiser mileage for two cruisers 166,528 which is 39,701 more miles than traveled in 1954.

Business places found unlocked by Patrolmen 179.

Summons served for out of town Police Departments 211.

Stolen Cars recovered 13.

Looking ahead to 1956, there are many problems facing the police department of which the people of this town should be informed prior to town meeting in order that the necessary arrangements can be made to meet them.

The traffic situation, as we all know, is getting more serious each year and, as work continues on the main arteries and expressways in

this area our problems will become greater, until such time as these are completed and carrying their anticipated loads.

The situation on Route 3 between Drum Hill and the North Chelmsford-Tyngsboro line, and especially from Vinal Square to Drum Hill, is going to be much worse in 1956 than it was in 1955, for two reasons:

1-The New Hampshire toll road now open from the state line to Manchester will be opened all the way to Concord in the summer and will pour more cars on the two and three lane sections of Route 3 from the state line southerly through Chelmsford to the Lowell Turnpike. This was bad in 1955, it will be much worse in 1956.

2-For several months in 1956 we will have to detour traffic around the railroad bridge on Princeton Street, North Chelmsford, while the state public works department rebuilds and widens this structure. The detour will slow traffic materially and this will add to the congestion which was serious enough last fall with no detour on this route.

In 1955 the police department answered 261 traffic accident calls in which 179 persons were injured and four were killed or died of injuries. In the previous year we had but 227 calls, with 196 injured included nine fatally.

In our work during 1955, the two cruisers travelled a total of 166,528 miles, or approximately 457 miles per day for an average. This mileage included the regular cruising duty plus the accident calls and all other calls which required police assistance.

The situation has now reached the point where a third cruiser is needed, and I am asking for an appropriation for the purchase of a third cruiser in my budget estimates for 1956.

The town is growing by leaps and bounds, and the amount of work for the police department is growing right along with it. There are miles upon miles of new roads to be covered, there is more traffic and there are more calls on the police for assistance.

We are hesitant to ask for additional funds at this time, but we cannot continue to provide satisfactory police protection without this third cruiser.

The year just ended has been a busy one for the department in many respects. The Tercentenary celebration placed an unusual task on our shoulders but I think all will agree that, with the co-operation of Police from the state and from the cities and towns in the area, the various phases of this observance, and particularly the parade which brought 20,000 or more spectators to town, were handled in such a

manner that no criticism was warranted.

The year also brought about the formation of the Chelmsford Auxiliary Police Band under the able leadership of Sergeant Basil J. Larkin, and this unit has distinguished itself on so many occasions that praise here would be redundant. The department is proud of its band and I believe the town is equally proud.

The band was fully equipped with uniforms and provided with music at no cost to the town, and it not only took part in the Tercentenary parade but participated in many other civic events and presented a series of exceptionally good concerts in the Center and the North. I wish at this time to thank all those who donated to make this possible.

We also assisted in the Halloween parties again this year and the people of the town showed their appreciation for this work in many ways.

It was a busy year, but a good year, and in closing, I wish to express my thanks to the Selectmen of the Town, to all Town Officials and employees, and to the general public for the co-operation which they have given their police department.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Chelmsford:

The School Committee has held twenty-four regular meetings and six special meetings during the fiscal year, 1955. In addition, the members have undertaken numerous special assignments in connection with school committee work as well as serving on the Center School and High School Building Committees. This work has required many evening meetings as well as a number of day trips to other communities for the inspection of new school buildings.

As in past years, the Committee has maintained close contact with the supervision of the school system. On several occasions the Committee has met with groups of interested citizens to discuss school matters and to receive various requests. As always, the Committee is constantly alert to every opportunity to improve the schools and is ever ready to discuss whatever problems may arise.

As long as the citizenry seek what is best for its children without permitting selfish or political influences to interfere with this goal, Chelmsford may expect to see steady improvement of its school system.

The Committee unanimously selected Mr. Thomas L. Rivard to succeed Mr. H. Morton Jeffords as Superintendent of Schools. Mr. Rivard, who undertook his duties February 15, has had broad experience as a teacher, principal and superintendent. The Committee is confident that with his able leadership Chelmsford will continue to have a strong and modern school system.

The Committee is grateful to Mrs. Agnes M. Toms who served as temporary secretary to the Superintendent until the permanent secretary, Mrs. Emily W. McIntosh, was hired last August.

The principal problems facing the School Committee are the inter-related ones of growth of the school enrollment, the coming need for more classroom space and the ever-increasing cost of public education.

Much thought has been given to the problem of teachers' pay and its effect on retaining teachers now on the staff and on securing competent teacher replacements in this period of extreme teacher shortage.

The opening of the new Center School last September relieved enrollment pressures on the elementary buildings allowing the closing of the East, Highland and Quessy Schools and leaving one extra classroom. However, next September eight additional classrooms will be needed for Grades 1—8. This will necessitate the re-opening of two, if not the three, elementary schools which were closed this year.

The High School housing problem is much more serious. The large elementary school enrollment which necessitated the building of the North and Center Schools is now entering High School. The present High School has a pupil capacity of 500. The enrollment as of October 1 was 497. The estimated enrollment for the next few years is as follows:

1956	584
1957	651
1958	707
1959	759
1960	831
1961	919

The High School Building Committee will recommend to the citizens that a 1,000 pupil high school be built as soon as possible. This new building would take care of future housing needs by:

1. Taking care of Grades 9—12.
2. Utilizing present High School for Grades 7 — 8.
3. Reverting McFarlin School back to Elementary use.

The maintenance and improvement of our present school buildings has received considerable attention during the year. The exterior woodwork at the North School and much of the interior of the Westlands School was repainted. Two rooms of furniture were replaced at the Westlands as well as the equivalent of one room at the High School. The hallways and classroom floors on the first floor of the McFarlin School and the gymnasium floor at the High School were sanded and refinished. The door closures were replaced or repaired at the McFarlin School and many window shades were replaced in the older buildings. In addition, there were many of the ordinary maintenance repairs made in all of the buildings.

The janitors are to be commended for the maintenance work they have done which undoubtedly has resulted in financial savings for the Town.

The cost of schools will increase for the 1956 school year. Last September eleven additional teachers were hired to offset

the pupil increase in school enrollment. Next September it is estimated that twelve extra teachers will be needed to accommodate the continuing rise in pupil enrollment. Provision also has been made for the hiring of a reading specialist and a special class teacher.

The Committee appreciates the cooperation and understanding it has received from the Town Departments, Town Officials, and Citizens as well as the Personnel of the school system. It will continue to make every effort, not only to maintain the high standard of education in the schools but, to try to improve it wherever necessary.

Respectfully submitted,

ALLAN D. DAVIDSON, Chairman

Chelmsford School Committee

REPORT OF THE SUPERINTENDENT

The continuing high birth rate coupled with the tendency of families to move to suburban areas has once again been reflected in a sharp increase in the pupil enrollment of Chelmsford.

This problem of "rapid growth" will continue for the next few years until this area has adjusted to the expansion of the super highways.

The elementary curriculum is being evaluated in the light of present day needs and methods of instruction. These projects will take considerable time to perfect but when completed will improve the caliber of our instruction.

The Rinehart handwriting system was adopted last September. A major objective of this program is to enable the pupils to develop with greater efficiency the processes of reading and writing. On the first and second grade levels, the pupils are taught slant lettering, a form of writing that is physically much easier for young children and which involves much less strain than cursive writing. Children quickly associate type and slant lettering forms which is a definite aid in the teaching of reading, spelling and language. At the beginning of grade three, cursive writing is presented. This is the time when most boys and girls have developed the necessary muscular skills and small muscle coordination for this type of writing.

The Social Studies textbooks have been replaced in Grades 7 and 8 and are now in the process of replacement in the lower grades.

The Reading textbook series has been completed and supplementary readers introduced.

The High School curriculum has been restricted because of the heavy enrollment. Your attention is called to Mr. Conrad's report which adequately covers the secondary section of our educational system.

A broad testing program is being carried on throughout the entire school system. This information is invaluable for curriculum planning, remedial work and for general evaluation of progress. In brief the testing program has shown that the capacity of Chelmsford's school children for achievement in academic studies is well above average on a nation-wide basis.

Chelmsford's teachers have been active in professional improvement. Two workshops were held this past Fall. The first, in the area of Reading and Writing, was held for the elementary teachers. The second, in Westford, was for all teachers and covered both the elementary and secondary curriculums. The bringing together of Educational Specialists in the field to discuss local educational problems and provide possible solutions to them assist greatly in stimulating teacher growth and understanding.

Many of our teachers also are enrolled in special courses in various colleges throughout this area.

Accident Insurance protection is again offered to all pupils. The cost of protection from September 1, 1955 to September 30, 1956 is \$1.25 per year. This insurance protects the child while attending his school and at all school functions including school trips and physical education activities. Every parent should avail himself of this opportunity to secure this protection at a very low premium cost. Already it has proved its worth to many parents who purchased it.

Your attention is called to the reports of our Supervisors which should provide a better knowledge of some of the work carried on in our public schools as well as to the charts and tables appended to this report.

The endeavors of the various Parent-Teacher Associations, the Booster Club, the Town Departments, the Town Officials and the Civic Organizations have been extremely helpful.

I am grateful to these people, to the School Committee and the entire School Personnel for their loyal support and cooperation.

Respectfully submitted,
THOMAS L. RIVARD,
Superintendent of Schools

AGE OF ADMISSION TO SCHOOL

For admission to the first grade in September, a child must have reached the age of five years and six months by September 10 of the year he is to enter. No entrance tests for children under the age requirement will be given. Vaccination and Birth Certificates are required.

EDUCATIONAL AND EMPLOYMENT CERTIFICATES

Every person from 14 to 16 years of age must have an employment certificate or permit, and those between 16 and 21 years of age must have an educational certificate before starting work. These certificates and permits may be obtained from the offices of the Superintendent of Schools and the Principal of the High School. When one makes application for a certificate (or "working card"), he must apply in person and bring Birth Certificate or proof of last grade attended.

NO SCHOOL SIGNALS

When school is called off because of severe weather conditions, the following system will be used:

1. The "NO SCHOOL" whistle which is 3-3-3 will blow at 7:00 A.M.
2. Radio Stations WLLH and WCAP, Lowell and WBZ, Boston will carry announcements on their regular No School Broadcasts.

It will be the policy of the School Department to close only in case of extreme weather conditions, otherwise, to hold regular sessions. Parents are urged, therefore, when school is in session on stormy days, to exercise their personal judgement as to the wisdom of sending their children to school.

HIGH SCHOOL

JOHN T. CONRAD, PRINCIPAL

The safeguarding of the needs of individual pupils is the major concern of the modern school. Instruction must be carried on in groups, and we are confronted with the necessity of recognizing the marked individual differences of pupils within these groups and of making provisions for those differences.

We are now aware that "education for all youth" is not in itself sufficient. We know today that education must be fitted to youth. We have too long committed the error of assuming that a free high school education is synonymous with equal educational opportunity for all. A high school which focuses its attention upon the needs of only a portion of its membership is certainly not fulfilling the purposes of education in a democracy. As our young people move into adulthood, each one is entitled to receive help in achieving maturity, occupational efficiency, good citizenship, and worthy home membership. What philosophy of life an individual teenager develops and what code of ethical values he evolves are matters of infinite community concern, and call for all-out aid from the school.

This problem of meeting individual needs concerns us seriously at Chelmsford High School. We need to evaluate and to adjust our curriculum if we are to accept the challenge of modern education. Increased enrollment is forcing us to curtail the courses we offer at the same time that we increase the number of pupils in our classes. The pressure of greater increases in enrollment next year will make imperative further curtailment of program and further enlargement of divisions, unless we act to remedy the situation.

The following table shows the number of Chelmsford graduates who attend post-secondary schools, in relation to the number of those who do not. The need for curriculum adjustment is obvious.

Graduates	1952	1953	1954	1955
Attending four-year colleges granting degrees	16	21	16	17
Attending Junior Colleges, special Schools and hospitals	13	13	13	12
Other graduates	51	53	63	45

The over-all purposes of the high school are not new. Secondary education is determined by three things: the needs of the society to be served, the character of the individuals to be educated, and the total available knowledge of educational theory

and practice. Society is always in the process of development, as are the sciences upon which educational theory and practice depend. We must be prepared to make changes and adjustments as we grow with our times and apply ourselves with new dedication to our great task.

Once more I should like to emphasize that the public school is a cooperative endeavor. A good school is not an accident, nor does it result from the isolated effort of one individual or one group of individuals, as helpful and inspiring as that effort may be. It is accomplished by the combined efforts of the School Committee, Superintendent of Schools, teachers, and townspeople. I pledge again my best effort, and again I ask of you the interest, understanding, and support that is so vital to successful public school education.

PHYSICAL EDUCATION

BOYS

VICTOR P. CALIRI

Numerous articles and books have been written about the objectives of physical education and its contributions to the individual, to the school, to society, and to democracy. The physical education program in the Town of Chelmsford is directed to the very crux of the situation; namely, striving to attain these impressive objectives.

A very important result of modern school education is that parents and educators are recognizing the desirability of letting every elementary and secondary school student have the opportunity to participate in physical education and to learn to play games and develop skills. The burden of responsibility then falls upon the physical education supervisor to use the best techniques possible in order that the students may derive maximum benefits through physical education.

This year the physical education program is attempting to pursue the following criteria:

1. Provide a varied program.
2. Take into account student desires, if possible.
3. Require total class participation.
4. Teach skills efficiently.
5. Make sure that activities are fun.
6. Actively teach sportsmanship.
7. Avoid situations which needlessly embarrass individual students.

The elementary program starting with the fifth grade stresses the basic skill drills in the following sports: football, speedball, basketball, volleyball, and baseball. As the particular sport season progresses, these skill drills are supplemented with selected lead-up games and control games. Tumbling, marching, and basic gymnastics complete the winter program.

The junior high school program, comprising grades seven and eight, attempts to introduce the students to a more advanced routine of physical education. This serves as a basic preparation for the senior high school program. The main problem at this level at the present time is the lack of time and facilities.

An intramural basketball league is being started at the eighth grade level and includes the senior high school. Games will be played during the regular gym period with the playoff games taking place after school hours.

The senior high school program consists of skill drills, highly organized activities, lead-up games, and control games in all various sports. The full program consists of: calisthenics, touch football, speedball, and soccer. The winter program consists of: calisthenics on a more advanced basis for body building, limited apparatus work, gymnastics, tumbling, military drill, and basketball. The spring program consists of: calisthenics, volleyball, military drill, baseball and softball.

The annual field day in May concludes the spring program.

PHYSICAL EDUCATION

GIRLS

MARY P. LYNCH

Motor skills play an important role in the social development of the child. A child's motor development will have an important bearing upon emotional features of his behavior. The unskilled child on the playground or in the gymnasium will have occasion to be insecure, fearful, or angry in facing a problem beyond his physical ability while his skilled classmate will meet the situation more easily. The physical education program, therefore, strives to teach the skills which will help the children of Chelmsford adjust easily to all problems, thus lessening physical, emotional, and mental strain.

The playground and gymnasium are superb laboratories for studying the individual because in play inhibitions are largely absent. In games, the broad range of emotions and social impulses that are aroused give numerous and realistic conduct situations in which behavior patterns may be observed. Problems facing our

children may be discovered by these observations and eliminated early in the child's career.

Because of the large number of children in the schools it is still necessary for the classroom teachers in the first three grades to handle the physical education program. These teachers stress the basic motor skills of skipping, hopping, running, and jumping by means of relays and games of low organization.

My time is devoted to the upper grades. Each fourth grade class has one twenty-five minute physical education class a week. In these classes games of higher organization are taught along with ball skills, tumbling, rhythmic activities, and elementary gymnastics and marching.

From the fifth grade up I work just with the girls. Each fifth and sixth grade class has one-half hour class in physical education a week. In these classes the same basic ball skills are stressed with additional time being devoted to more highly organized games and lead-up games for team sports. Some time is also devoted to rhythmic activities, gymnastics, tumbling and marching.

Because of a lack of time and space the girls in the seventh and eighth grades are limited to one forty-five minute class every three weeks. The program in this area is therefore very limited but stress is put on posture training, rhythmic activities and lead-up games for team sports. During the fall I was able to have field hockey two afternoons a week for the girls. In the spring I hope to be able to schedule softball in a similar program.

Each senior high school student has two forty-five minute physical education classes a week. In these classes fundamental skills in field hockey, basketball, volleyball, and softball are taught. Another phase of the program includes posture training, rhythmic activities, gymnastics, marching and field events.

Varsity teams represent Chelmsford in field hockey, basketball, and softball and these teams play in interscholastic competition in this area.

MUSIC

OLIVE LITTLEHALE

The music program of the Chelmsford Schools is based on the five-fold program as suggested by the National Music Committee on Music Education:

Rhythmic	Singing
Playing	Listening
Creating	

The music education of every child should begin with singing. A great deal of individual singing is carried out in the primary grades. A chorus is available for all those in Grades 4 through 6 who like to sing. This year, special Glee Clubs were formed. Auditions were held for membership. The North School's Special Glee Club and Chorus sang with outstanding success for the P.T.A. at its Christmas meeting.

The listening program continues to offer children an opportunity to participate in one of the very important phases of music education. Even the non-singer finds here the joy and satisfaction of being one with his class in listening to good music.

Rhythm is stressed in the overall pattern as it not only adds to the childrens' pleasure and appreciation of music but to their general well being. A well coordinated child is a happy child. The square dance program has been extended to include all grades, one through six.

The pageant for the Chelmsford Tercentenary was written, staged and directed by me. It included children in all grades—one through high school. The preparation was carried on in the classroom in grades 1 through 6 and therefore took the place of the annual Music Festival.

This year instruments were introduced in the fourth grades through the use of Song Flutes. In previous years there has been no tie-up between the rhythm instrument program and the instrumental program as carried on by Mr. Bordeleau. The use of Song Flutes makes this necessary transition. Next year it is hoped to extend this program to include the third grades.

During the summer in conjunction with Mr. Driscoll, State Supervisor of Public School Music, a Vocal Music Education Program was studied and presented to Mr. Rivard. The suggestions made in this survey were taken into consideration in setting up this year's music program for Grades 1 through 6.

I wish to take this opportunity to thank all those who, in any way, made this program possible.

MUSIC

PAUL E. BORDELEAU

1955 has truly been a busy year, especially since music played such a great part in the Tercentenary celebration.

The Chelmsford High School Band appeared in the Billerica Tercentenary Parade, the Chelmsford Tercentenary Parade, the Tercentenary Pageant, the Lowell High School Field Day Parade, in Beverly for the Northeastern Music Festival, the Memorial

Day Parade, the Chelmsford Field Day, for the Graduation Exercises, and at their own Band Concert held in May. The Band appeared at the football games this fall and also participated in the Boston University Band Day at Boston University Field in November at the invitation of Boston University. In addition to this, the band also performs for various school functions such as assemblies, pep-rallies, etc.

In February, Richard DeFreitas, clarinetist in the band, represented Chelmsford High School at the All-State Band Concert held in Symphony Hall in Boston, Mass.

In April, a Solo and Ensemble Festival was held at the High School, in which the better players from the 5th to 12th grades appeared.

This year the band is bigger than ever. It is composed of 52 members, a well balanced instrumentation, and with performers who are improving all the time.

In November, the Jr. High School Band made its debut at the newly organized High School Parent-Teacher Association. The band is made up of 27 members with 10 more members to be added in the near future as they are ready. The band has also performed for Jr. High assemblies.

There are now three elementary bands, one in each of the elementary schools. These bands are made up of students from the 5th and 6th grades. The North School Band performed in November for the North School Parent-Teacher Association and also for the Christmas Assembly. The Center School Band performed at the Christmas Assembly. The Westlands School Band will make its debut in the near future.

Since I am also the director of the High School Glee Clubs, mention should be made of the fine work that this special group of 36 voices did in the Spring. They appeared at the Tercentenary Celebration, the Spring Band Concerts and at various other activities. Out of this group, I picked four girls with outstanding voices and formed the Mellotones. The Mellotones appeared at the Northeastern Music Festival in Beverly, helped provide entertainment during the Tercentenary Celebration, appeared at the Talent Show, and many other places, including Television station WMUR in Manchester, N.H.

This year the Glee Club is larger due to the increased enrollment of students in the High School. At the Christmas Assembly, the Glee Club performed the Fred Waring arrangement of "The Night Before Christmas".

ART PROGRAM**E. RUTH GREENBERG**

The philosophy of the Art Education Program is summed up in the following paragraph found in the Massachusetts Curriculum Guide:

“Art as an essential part of education contributes to the full development of each child and to the community in which he lives. It is an interpretation of life, and must be as creative as life itself.”

The standard for judging art is not nature. The child should express his own ideas as he sees them, not by copying, or tracing patterns. This expression comes about through the use of the art elements: Line, form, color, texture, dark and light. Art education is concerned with the individual response of the child to his environment through these elements. We must remember that self-expression is the appropriate mode of expression according to the age level of the child. By developing powers of observation of the art elements, the child will be able to express his thoughts and ideas.

The art program encourages creative activity, which to a great extent, consists of activating a child's passive knowledge; knowledge which the child has, but does not use. It is our job to encourage originality, creative expression and initiative through understanding, and guidance, rather than direct, negative criticism.

Many children are limited in graphic expression, but art appreciation will grow through lessons which provide both “doing” and “seeing” experiences. Art experiences which will help them in their everyday living, come about through lessons which train them to select their clothes in good taste, plan attractive homes, and to beautify the community.

Working together successfully, to develop desirable social habits and good citizenship is brought about through class projects, which are experiences in responsibility, cooperation and initiative.

At all levels, the children have lessons in painting, clay modeling, paper sculpture, and various kinds of crayon work, which are basic art materials. As the children advance in grade level, the scope and understanding of these materials are broadened, and new media are introduced. More art facts are given at the upper levels. Because of diversified interests as the child advances, more craft work is introduced.

An art experience must be meaningful, but the value of this experience is increased greatly, when the child receives joy from working with the art materials.

SCHOOL NURSE'S REPORT

HELEN M. JEWETT, R.N.

The following is a tabulation of the work carried on during the year, 1955:

Number of visits to schools	424
Number of visits to homes for defective causes	188
First Aid in schools	252
Number of pupils sent or taken home on account of contageous or suspected illness	166
Pupils inspected in school	1,056
Health discussions	60
Number of children accompanied or referred to:	
Doctor	14
Hospital	23
Heart Clinic	10
Eye Specialist	12
Individual instruction to pupils	35

Part of the work of the school nurse consists of following up her "pupil-patients" in their homes. Occasionally the child's parents are unaware of the various state and community health and welfare agencies whose facilities can often be advantageously utilized. A timely visit and an informal chat by the School Nurse with a parent may help to establish the proper contact for further assistance.

The pupil's vision and hearing tests are conducted annually. Two percent of the children tested were found to have some hearing defect while 21 percent failed some part of the vision test.

408 children received the initial Salk polio vaccine. The details for this year's program for giving polio vaccine have not yet been formulated.

Our school Physicians examined all children in Grade 1, 4, 7, and 11. Notices were sent home reporting any physical defects discovered during these examinations. In addition to these physicals, the annual immunization, pre-school and vaccination clinics were held.

The heavy increase in the school enrollment is making it difficult to continue the carrying out of a well-balanced program.

SCHOOL LUNCH PROGRAM

MARY E. STEVENS

With the opening of the new Center Elementary School in September, we find that we are averaging an increase of over 100 student lunches per day which brings the total for the period from January, 1955 through December, 1955 to 125,140. During the same period 277,073 one-half pints of milk were purchased. Milk consumption by the children has increased and this is partially due to the fact that we are receiving larger subsidy from the Government on milk, enabling us to sell half-pint bottles to students for 3c each.

The State and Federal Government require that certain standards be met which means that each luncheon includes 2 ounces of protein, bread, butter, 3/4 cup vegetables or fruit or a combination of both and 1/2 pint whole white milk. This provides about one-third of the nutritional requirements of school children and so helps carry out the purpose of the School Lunch Program which is "to improve the health of the nation's children through more and better school lunches at lower cost".

The School Lunch Program in Chelmsford has taken on new form and meaning since its beginning when parents sent from home a plate, knife, fork and spoon by each child and kitchen utensils and equipment were donated by individuals and interested groups. The new beautifully and completely equipped cafeterias and kitchens make for better sanitary conditions and efficiency and permit the preparation of more varied menus.

We are most grateful for the fine cooperation which is given us by the School Committee, Superintendent of Schools, principals, teachers, parents and students as well as the faithful employees who prepare and serve our lunches.
