ARCHITECTURAL DESCRIPTION:

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings within the community.

85 Dunstable Road sits in the middle of a group of three houses close to the street. There is a low stone wall that edges the sidewalk. A small drive way leads from the street along the West elevation. The house has been added onto at a later date. The original footprint was the 19'x28' one and a half story house with a single story wing measuring 14'x18' to the East. There is a modern addition on the North side measuring 24'x12'. The front porch measures 4'x19' and is supported by three square columns. Under the front porch roof, there is a bay window with fixed windows, and a concrete step. The roofs are architectural shingles. The one and a half story section has an average pitch with a small metal vent, just to the West of the ridge, roughly in the center. The single story wing has differing eave heights on the front and back reminiscent of a tutor style. The siding has been covered or replaced with vinyl siding with the exception of the face of the single story wing. All original trim and details have been removed and covered with aluminum. The South elevation has an entry door under the porch with a bay window on the first floor. The second floor has a pair of double hung windows. The single story addition has an additional entry with a pair of octagonal windows flanking it. There is a small dormer on the roof with a double hung window. The East elevation has two additional octagonal windows on the first floor and a double hung on the second floor. The West elevation has two double hung windows on the first floor. The house sits on a field stone foundation.

HISTORICAL NARRATIVE

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

In the late 1800's, Amelia LeMarinel recognized the housing need for the workers in North Chelmsford's booming wool and granite industries, to meet the need in 1895, Amelia built 3 identical cottages (1) on the road leading to Dunstable, using them as rentals. These homes were often converted into 2 families for related family members. After Amelia's death her children sold in 1919 to Thomas and Elizebeth Leman. (2) The couple were married in Bradford Cathedral, Yorkshire, England on Nov. 25, 1883. (3) The Lemans along with Mary white, Elizabeth's sister, immigrated to this country in 1909 and were naturalized citizens when they bought the house in 1919. (4) The 1920 Federal Census shows the Lemans were 60 years old and Mary White was 67 years old. Both Mary and Thomas were working in the wool mills. (5) On Nov. 25, 1922, Thomas passed. (6) In May 1924 the house passed to George and Elizebeth Leman, Thomas's son and daughter-in-law. (7) The 1930 Federal Census shows the house was being used as a 2 family with Elizebeth, widow of Thomas and her sister Mary White in one unit and George and Elizebeth, son and daughter-in-law, living in the second unit with their 3 children. (8) The widow of Thomas passed on June 22, 1944 at the age of 86. (9) George, his wife Elizebeth and son Albert continued to live in the house. George Leman also immigrated in 1909, became a naturalized citizen and worked as a comber in the wool mills. (10) On George Leman's draft registration card for World War I he stated he worked as an overseer in the U.S. Worsted Mill and requested exemption from the draft to support his family. The card also noted he was 30 years of age, of average height and build, had grey eyes and brown hair. (11) George passed on September 26, 1944. (12) The widow Elizebeth Ellen stayed in the house until May 1966 when she sold it to the current owners Leroy and Virginia Fielding. Elizebeth E. passed in 1979. (13)
